From GJB

On September 10, 1976 we received telephone instructions from Mr. Palmer in connection with the above cases. Specifically, Mr. Palmer said that as to 582-560 Finland and with reference to our May 6 letter, he considers that claims 1-7 directed to method are sufficient and if they are allowable, they should be accepted and the rest of the claims in the application cancelled.

As to the other two cases, Mr. Palmer instructed that the printing fees would not be paid on either of these so apparently he wishes to allow the applications to become abandoned.
